

Impresora: Vía Cable USB

01. Terminal | Acceso al Modo Administrador

```
sudo su
```

```
cvc
```

02. Terminal | Instalar Mozilla Firefox

```
apt update
```

```
apt install firefox-esr
```

03. Terminal | Instalar CUPS

```
sudo apt-get install system-config-printer
```

```
sudo apt-get install hplip
```

```
sudo apt-get install hplip-gui
```

```
apt-get install cups cups-client
```

```
usermod -a -G lpadmin cvc
```

04. Terminal | DRIVERS: UNYKA UK56009

```
bash <(curl -s  
"https://panel.comunicacionvisualcanarias.com/uploads/printer/descargarImpreso  
ra.php?file=unyka")
```

```
cd /home/cvc/printer
```

```
sudo apt install ./unykaUK56009.deb
```

Mozilla Firefox: CUPS -> POS-> POS-80(en)

04. Terminal | DRIVERS: TM-T70II

```
bash <(curl -s  
"https://panel.comunicacionvisualcanarias.com/uploads/printer/descargarImpreso  
ra.php?file=tmx")
```

```
cd /home/cvc/printer
```

```
tar zxvf tmx-cups-2.0.3.0.tar.gz
```

```
cd tmx-cups
```

```
sudo ./install.sh
```

- 6
- 8
- 10

Mozilla Firefox: CUPS -> POS-> POS-80(en)

04. Terminal | DRIVERS: XPRINTER XP-C2008

```
bash <(curl -s  
"https://panel.comunicacionvisualcanarias.com/uploads/printer/descargarImpresora.php?file=xprinter")
```

```
cd /home/cvc/printer
```

```
sudo apt install ./xprinter.deb
```

Mozilla Firefox: CUPS -> Unknown -> _xprinter -> XP-80

04. Terminal | DRIVERS: Todas las Impresoras

```
bash <(curl -s  
https://panel.comunicacionvisualcanarias.com/uploads/printer/descargarImpresora.php)
```

```
cd /home/cvc/printer
```

05. Mozilla Firefox: CUPS

http://localhost:631

USER: cvc

PASS: cvc

Instalar Impresora (Descrito en Drivers)

Establecer como Impresora Predeterminada

06. Terminal | Ajustes Finales

```
sudo apt-get install hpijs-ppds printer-driver-hpijs
```

```
apt --fix-broken install
```
